Surfinesse™ Hydra

Water-friendly emollient

SURFINESSE® HYDRA

A new PEG free water-friendly emollient that reduces surfactant-induced aggressiveness

Surfinesse™ Hydra is a PEG-free, water-friendly emollient that demonstrates efficacy in reducing surfactant-induced aggressiveness. It represents a high-performance, palm-free, and PEG-free alternative for the personal care market. Its dual benefit—sustainability and clinically proven skin protection—makes it an ideal candidate for high water content, frequent-use formulations dedicated to sensitive skin.

TECHNICAL DATA

INCI: Polyglyceryl-10 Olivatate/Pelargonate (proposed)

- Plant-based ingredient
- 100% from renewable sources
- ISO 16128 Natural Origin Index = 1
- Readily biodegradable (OECD 301 F)
- Palm-free
- EU REACH
- Vegan
- NaTrue
- COSMOS
- Patent pending

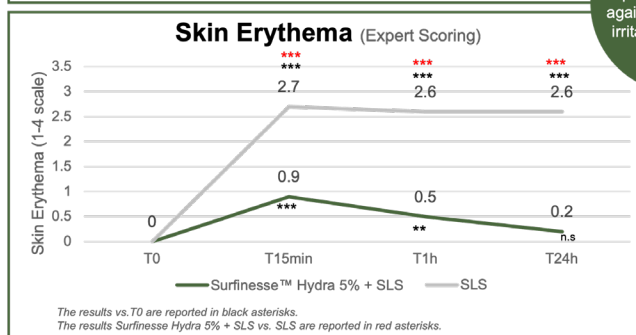

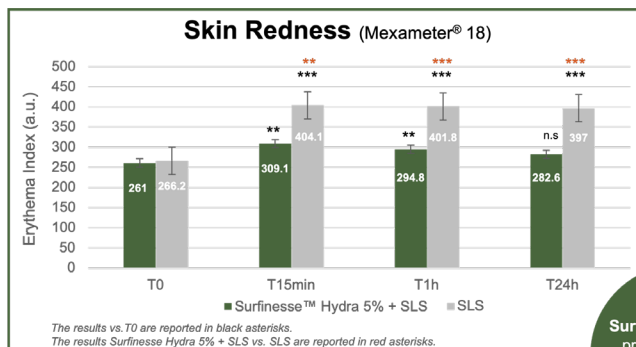

FEATURES AND BENEFITS

- Water soluble
- Improves sensory
- No negative impact on foam
- Clinically proven
 - Reduction of skin erythema
 - Reduction of skin oedema

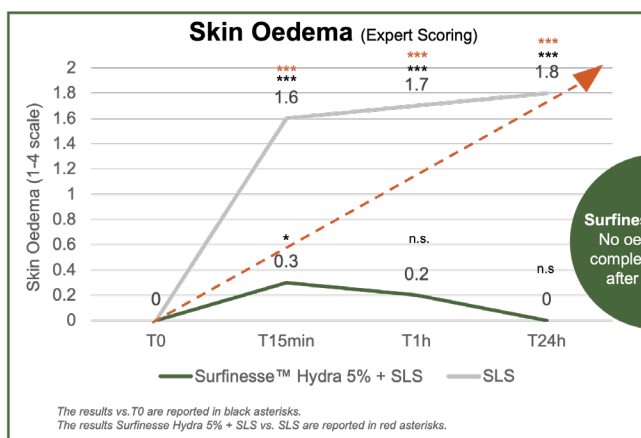

APPLICATIONS

Leave-on and rinse off:

- Toners
- Micellar waters
- Mists
- Serums
- Ampoules
- Skin care towels/pads
- Hair and scalp care
- Gel masks
- Cleansing gels

Surfinesse™ Hydra protects the skin against SLS-induced irritation, even after 24 hours.

Surfinesse™ Hydra No oedema and complete recovery after 24 hours.

Surfinesse™ Hydra protects the skin against SLS-induced skin irritation, and after 24 hours completely reverses skin alterations induced by SLS.
