Dual Olive Serum

Formula Number: SZE22030405

This serum has triple barrier function repairing properties (skin sebum, liquid crystal, NMF), thanks to Sensolene® and Olivem® 1000. Both its water and oil phases use an olive extract (Eurol® BT and MYRTLE-OLIVE Oléoactif®) – a mechanism designed for sensitive skin.

Eurol® BT is a multifunctional active ingredient made from olive plant leaves, with anti-aging, anti-irritating, anti-inflammatory, moisturizing, skin elasticizing, antimicrobial, anti-acne and skin lightening benefits.

Sensolene® provides high levels of skin compatibility and improves hydration. It is composed of a combination of fatty acids that chemically mimics the composition of skin's hydrolipidic film, providing physiological compatibility.

Olivem® 1000 is a PEG-free self-emulsifying multifunctional ingredient able to generate liquid crystal structures that mimic the stratum corneum organization. The inclusion of just 1% of this self-emulsifier delivers rapid hydration and sustained moisturization as demonstrated by clinical testing.

Olivem® 300 is a strong, water-soluble, lipid emollient offering a distinctive, luxurious feel and long-term moisturizing effects as well as sebum-recovering activity.

MYRTLE-OLIVE Oléoactif® acts on photo-induced oxidative stress and scavenges free radicals. It is 100% natural and organic, derived from myrtle and olive leaves extracted in deodorized organic olive oil through the patented Oléo-éco-extraction process.

Phase	INCI Name	Trade Name	%wt	Function
A	Ethylhexyl Oliviate	Sensolene®	1.00	Multifunctional Emollient
	Olea Europaea (Olive) Fruit Oil, Myrtus Communis Leaf Extract, Olea Europaea (Olive) Leaf Extract	MYRTLE-OLIVE Oléoactif®	1.00	Active Ingredient
	Tocopherol	Biochemica® Vitamin E Natural	0.20	Antioxidant Agent
B	Cetearyl Oliviate, Sorbitan Oliviate	Olivem® 1000	1.00	Self-Emulsifier/Liquid Crystal Maker
	Olive Oil PEG-7 Esters	Olivem® 300	3.00	Emollient
C	Sodium Hyaluronate		0.05	Active Ingredient
	Xanthan Gum		0.20	Thickener
	Hydroxyethyl Acrylate/Sodium Acryloyldimethyl Taurate Copolymer		0.40	Thickener
	Glycerin		5.00	Humectant
	Hydroxyacetophenone, 1,2-Hexanediol		1.00	Preservative
	D.I.Water		82.15	Volatile Carrier
D	Olea Europaea (Olive) Leaf Extract, Water	Eurol® BT	5.00	Multifunctional Active Ingredient
	Saccharide Isomerate		3.00	Active Ingredient

Preparative procedure

Mix phase A well and heat to 75°C. Mix phase B well and heat to 80°C. Add phase A into phase B at 3000rpm (Silverson). Homogenize the bulk for 3mins at 3000rpm (Silverson). Cool down the emulsion to room temperature at 100rpm. Adjust pH under 6.5.

Product characteristics (25°C)

- Appearance: translucent serum

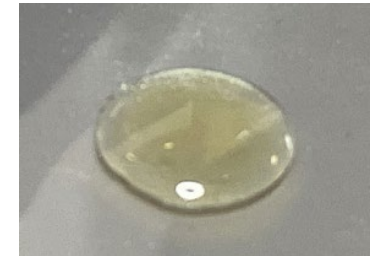

Olive Skin Corrective Serum

Formula Number: SZE21122103

This moisturizing, non-greasy serum is ideal for sensitive and acne-prone skin thanks to its use of 10% EuroI® BT. The formulation boasts soothing, anti-redness, skin refreshing and conditioning benefits.

Phase	INCI Name	Trade Name	%wt	Function
A	Sodium Hyaluronate(1W)		0.05	Active Ingredient
	Sodium Hyaluronate(20W-40W)		0.05	Active Ingredient
	Disodium EDTA		0.05	Chelating Agent
	Olea Europaea (Olive) Leaf Extract, Water	EuroI® BT	10.00	Multifunctional Active Ingredient
	1,2-Hexanediol, Hydroxyacetophenone		0.50	Preservative
	D.I.Water		89.35	Volatile Carrier

EuroI® BT is a multifunctional active ingredient made from olive plant leaves, with anti-aging, anti-irritating, anti-inflammatory, moisturizing, skin elasticizing, antimicrobial, anti-acne and skin lightening benefits.

Preparative procedure

Mix phase A well

Product characteristics (25°C)

- Appearance: transparent serum

Olive Renewal Facial Oil

Formula Number: SZE21121711

This two-phased essential oil replenishes skin with moisture and oil, renews skin and rebuilds skin elasticity thanks to MYRTLE-OLIVE Oléoactif® and Eurol® BT. Multifunctional emollients Sensolene® and Sensolene® Light ET enable the creation of beauty formulations with extremely light sensoriality.

Sensolene® improves spreadability and hydration. The emollient is composed of a combination of fatty acids that chemically mimics the composition of skin's hydrolipidic layer, providing physiological compatibility.

Sensolene® Light ET is a multifunctional biomimetic active emollient derived from oil and olive leaves that gives an extremely light touch to every beauty formulation. It is a sustainable alternative to silicones: 100% natural origin, COSMOS-approved and globally-compliant.

MYRTLE-OLIVE Oléoactif® acts on photo-induced oxidative stress and scavenges free radicals. It is 100% natural and organic, derived from myrtle and olive leaves extracted in deodorized organic olive oil through the patented Oléo-éco-extraction process.

Eurol® BT imparts anti-inflammatory and anti-oxidant activities. This multifunctional active ingredient made from olive leaves is a natural blend of diphenolic compounds, including oleuropein.

Phase	INCI Name	Trade Name	% Wt	Function
A	Squalane		27.50	Emollient
	Meadowfoam Seed Oil		1.00	Emollient
	Simmondsia Chinensis (Jojoba) Seed Oil	Biochemica® Jojoba Oil Deodorized	2.00	Emollient
	Ethylhexyl Olivatate	Sensolene®	30.00	Multifunctional Emollient
	Ethyl Olivatate, Olea Europaea (Olive) Leaf Extract	Sensolene® Light ET	5.00	Multifunctional Emollient
	Undecane and Tridecane		10.00	Volatile Carrier
	Tocopherol	Biochemica® Vitamin E Natural	0.50	Antioxidant Agent
B	Olea Europaea (Olive) Fruit Oil, Myrtus Communis Leaf Extract, Olea Europaea (Olive) Leaf Extract	MYRTLE-OLIVE Oléoactif®	4.00	Active Ingredient
	Sodium Chloride		0.50	Stabilizing Agent
	Olea Europaea (Olive) Leaf Extract, Water	Eurol® BT	0.20	Multifunctional Active Ingredient
	Glycerin		5.00	Humectant
	1,3-Butanediol		5.00	Humectant
	Sodium Hyaluronate		0.05	Active Ingredient
	Saccharide Isomerate		0.70	Active Ingredient
Hydroxyacetophenone, 1,2-Hexanediol		1.00	Preservative	
D.I.Water		7.55	Volatile Carrier	

Preparative procedure

Mix phase A and phase B well separately. Put phase B and Phase A into the package.

Product characteristics (25°C)

- Appearance: transparent bilayer liquids

Olive Anti-acne and Repairing Cream

Formula Number: SZE22040603

This moisturizing cream has excellent anti-acne, soothing and anti-inflammation benefits, thanks to MYRTLE-OLIVE Oléoactif®, CLEAR Oléoactif® and Eurol® BT. Olivem® 2090G enables a non-greasy, rich but spreadable cream with a nourishing and hydrating effect. Its soothing properties make it a great companion product for peels and exfoliants.

Olivem® 2090G contributes to creating a stable, easily spreadable formation. The olivate component of this high-performing W/O cold process emulsifier imparts high biomimetic sensoriality.

Sensolene® Light ET combines superior emolliency with anti-oxidant benefits, thanks to the unique, natural Oléo-éco extraction patented process.

MYRTLE-OLIVE Oléoactif® acts on photo-induced oxidative stress and scavenges free radicals. It is 100% natural and organic, derived from myrtle and olive leaves extracted in deodorized organic olive oil through the patented Oléo-éco-extraction process.

CLEAR Oléoactif® minimizes imperfections and smoothes the skin. It is an active ingredient based on the sustainable use of an organic thyme co-product with remarkable properties.

Eurol® BT imparts anti-inflammatory and anti-oxidant activities. This multifunctional active ingredient from olive plant leaves is a natural blend of diphenolic compounds, including oleuropein.

Phase	INCI Name	Trade Name	% Wt	Function
A	Caprylic/Capric Triglyceride		5.00	Emollient
	Ethyl Olivete, Olea Europaea (Olive) Leaf Extract	Sensolene® Light ET	3.00	Multifunctional Emollient
	Squalane		2.00	Emollient
	Isohexadecane		5.00	Emollient
	Polyglyceryl-4 Oleate (and) Polyglyceryl-3 Polyricinoleate	Olivem® 2090G	3.00	Multifunctional Cold Process Emulsifier
	Camelina Sativa Seed Oil, Thymus Vulgaris Flower/Leaf/Stem Extract	CLEAR Oléoactif®	1.00	Active Ingredient
	Olea Europaea (Olive) Fruit Oil, Myrtus Communis Leaf Extract, Olea Europaea (Olive) Leaf Extract	MYRTLE-OLIVE Oléoactif®	2.00	Active Ingredient
	Dextrin Palmitate		1.00	Thickener
	Bisabolol		0.10	Active Ingredient
	Tocopherol	Biochemica® Vitamin E Natural	0.20	Antioxidant Agent
B	Magnesium Sulfate		0.80	Stabilizing Agent
	Water/Lactobacillus/Soya Milk Fermentation Product Filtrate/Butanediol/1, 2-Pentanediol		1.00	Active Ingredient
	Glycerin		2.00	Humectant
	1,3-Butanediol		5.00	Humectant
	Hydroxyacetophenone, 1,2-Hexanediol		1.00	Preservative
	D.I.Water		67.40	Volatile Carrier
	Olea Europaea (Olive) Leaf Extract, Water	Eurol® BT	0.50	Multifunctional Active Ingredient

Preparative procedure

Prepare phase A and heat phase A up to 80-85°C. Prepare phase B and heat phase B up to 75-80°C, stirring with anchor pale at 250rpm. Add very slowly phase A to phase B with anchor pale at 250rpm, keeping the temperature to 80-85°C. Stir the phase AB under anchor pale for 2 minutes at 250rpm. Homogenize the phase AB, using a suitable dispersion unit (Silverson) for 2 minutes.

Infinite Flex Olive Repairing Facial Mask

Formula Number: SZE210705

This facial mask can be customized to suit different skin types and ages. It is part of an “Infinite Flex” collection that includes Olive Repairing Essence, Concentrated Olive Gel, Hydrating Gel Mask, Moisturizing Mask and several other formulations.

MYRTLE-OLIVE Oléoactif® acts on photo-induced oxidative stress and scavenges free radicals. It is 100% natural and organic, derived from myrtle and olive leaves extracted in deodorized organic olive oil through the patented Oléo-éco-extraction process.

Sensolene® Light ET is a multifunctional biomimetic active emollient derived from oil and olive leaves. 100% natural origin, COSMOS-approved, and globally-compliant, it is a sustainable alternative to silicones and confers a light sensoriality to formulations.

Eurol® BT Powder, created from olive leaves, has the same anti-aging, anti-irritation, anti-inflammatory, moisturizing, skin elasticizing, antimicrobial, anti-acne, skin lightening and free radical quenching benefits as Eurol BT's non-powder form.

Olivem® 1000 is a PEG-free self-emulsifying multifunctional ingredient with excellent skin protection and barrier function repair properties.

Olivem® 2020G is a naturally-derived cold-process emulsifier. The multifunctional biomimetic ingredient combines excellent emulsification performance and natural dermollience.

Infinite Flex Olive Repairing Facial Mask

Formula Number: SZE210705

Hydrating Gel Mask

Phase	INCI Name	Trade Name	% Wt	Function
A	Ethylhexyl Olivatate, Sodium Acrylates Copolymer, Polyglyceryl-4 Oleate	Olivem® 2020G	2.00	Multifunctional Cold Process Emulsifier
	Disodium EDTA		0.05	Chelating Agent
	Sodium Hyaluronate		0.05	Active Ingredient
	Saccharide Isomerate		3.00	Active Ingredient
	1,3-Butanediol		5.00	Humectant
	Hydroxyacetophenone, 1,2-Hexanediol		1.00	Preservative
	D.I.Water		88.90	Volatile Carrier

Preparative procedure

Mix phase A except Olivem 2020G well. Add Olivem 2020G into phase A, homogenize with 5000rpm for 3mins.

Product characteristics (25°C)

- Appearance: milk gel

Olive Repairing Essence

Phase	INCI Name	Trade Name	% Wt	Function
A	Olea Europaea (Olive) Fruit Oil, Myrtus Communis Leaf Extract, Olea Europaea (Olive) Leaf Extract	MYRTLE-OLIVE Oléoactif®	50.00	Active Ingredient
	Ethyl Olivatate, Olea Europaea (Olive) Leaf Extract	Sensolene® Light ET	50.00	Multifunctional Emollient

Preparative procedure

Mix phase A well

Product characteristics (25°C)

- Appearance: attractive green oil

Moisturizing Mask

Phase	INCI Name	Trade Name	% Wt	Function
A	Disodium EDTA		0.05	Chelating Agent
	Ceteary Olivatate, Sorbitan Olivatate	Olivem® 1000	5.00	Self-Emulsifier/Liquid Crystal Maker
	Ceramide NP (and) Ceramide AP (and) Ceramide EOP (and) Phytosphingosine (and) Cholesterol (and) Sodium Lauroyl Lactylate (and) Carbomer (and) Xanthan Gum		1.00	Active Ingredient
	1,3-Butanediol		5.00	Humectant
	Hydroxyacetophenone, 1,2-Hexanediol		1.00	Preservative
	D.I.Water		87.95	Volatile Carrier

Preparative procedure

Mix phase A except Olivem 1000 well, heat to 80°C. Add Olivem 1000 into phase A, stir at 400rpm for 5mins. Homogenize with 5000rpm for 3mins.

Product characteristics (25°C)

- Appearance: shiny cream

Concentrated Olive Gel

Phase	INCI Name	Trade Name	%wt	Function
A	Olea Europaea (Olive) Leaf Extract	Eurol® BT Powder	50.00	Active Ingredient
