BIOCHEMICA® AVOCADO BUTTER

Avocado is rich in vitamins A, D, and E, unsaturated fatty acids and lecithin, all of which are known to be beneficial for your health and your skin. As the increasingly popular avocado gained attention as a superfood, Biochemica® Avocado Butter was developed exclusively to provide these benefits for cosmetic applications. It exhibits excellent spreadability and contains the right properties needed to improve dry, rough skin. Use Biochemica® Avocado Butter to feed your skin the extraordinary properties of this superfruit.

INCI NAME

Persea Gratissima (Avocado) Oil, Hydrogenated Vegetable Oil

Properties	
Appearance	Soft off-white fat
Odor	Vegetable

Melting Point (°C)	40 - 50
Acid Value (mg KOH/g)	2 maximum
Peroxide Value (mEq/kg)	5 maximum
Insoluble In	Water
Soluble In	Cosmetic Esters (hot), Vegetable Oil (hot)
Packaging	Cosmetic Esters Vegetable Oil

APPLICATIONS

After sun
skin care

Facial
skin care

Hand and
body care

Bar soaps

Foot care

Hair
conditioners

Massage
products

Facial masks

BENEFITS

- Biodegradable
- Bodying agent
- Ecocert
- Emollient
- Lubricant
- Moisturizing agent
- Plant-derived
- Superfating agent

CLAIMS

"When (avocado) is applied with cocoa butter, it helps in lightening scars and spots and gives you a radiant skin tone."

"Help to reduce dark marks, hydrates and helps to prevent breakouts and leaves your skin nourished and silky smooth."

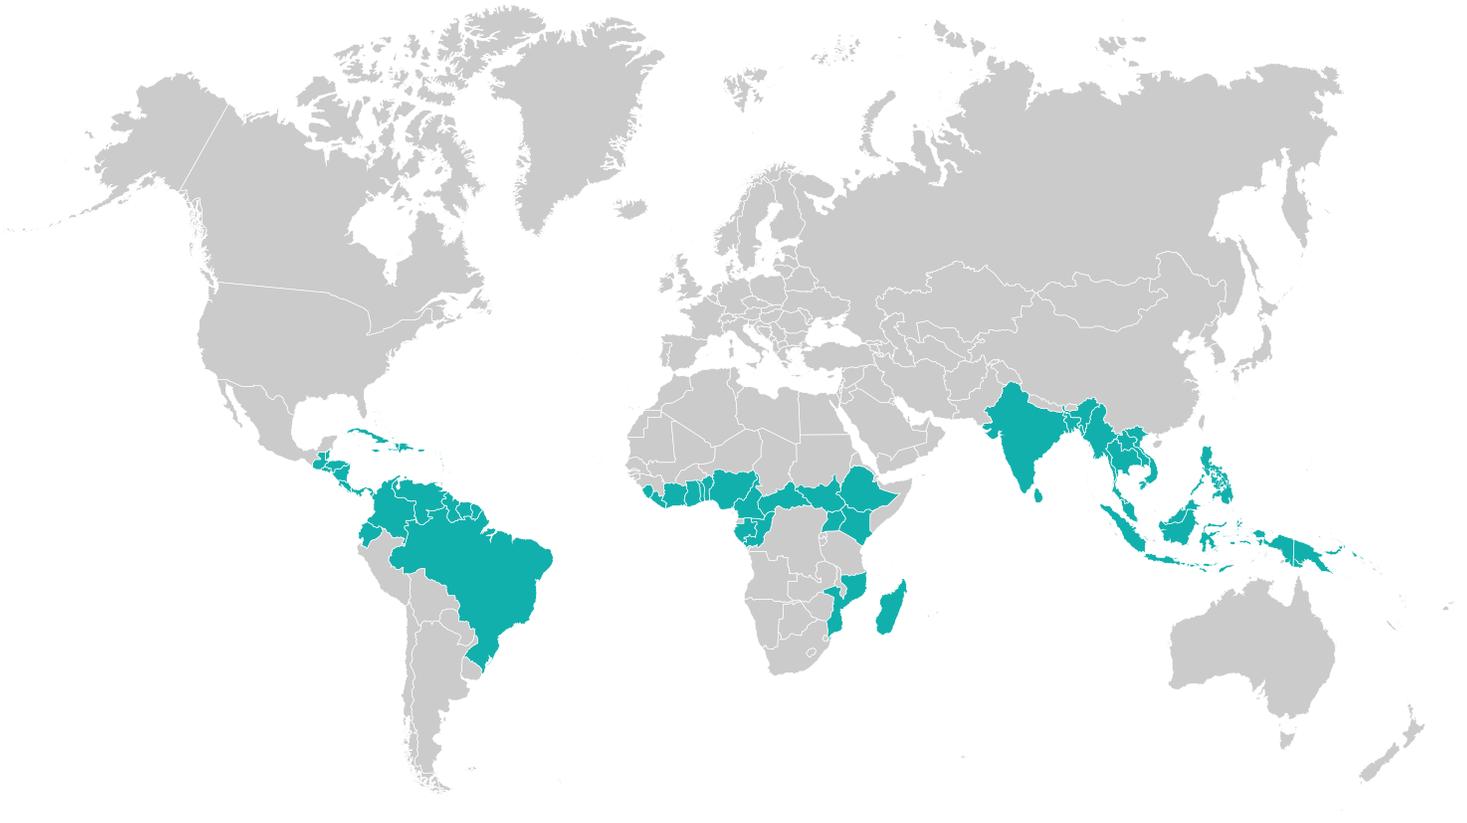

Nourishes the hair and the scalp with vitamins and minerals thereby helping to keep both healthier for longer. This nourishing feature makes oil great for treating dry, damaged and frizzy hair in hot oil treatments and for massaging the scalp.

FORMULATED SOLUTIONS

Avocado-Lemon Butter TiO₂ Sunscreen SPF 30. This formulation was designed to provide broad spectrum SPF 30 performance for the U.S. marketplace using only HallBrite® EZ-FLO TDX to deliver UV filter content. It is water resistant, preservative free, and can be customized in natural butters and oils. The HallBrite® BHB in HallBrite® EZ-FLO TDX aids wetting and dispersion of the Titanium Dioxide and enhances product feel. Biochemica® Avocado Butter combined with Biochemica® Lemon Butter softens, moisturizes, and rejuvenates skins, and adds a pleasant fragrance.

NATURAL SOURCING

Biochemica® Avocado Butter is made from the fruit of the avocado tree which grows in sub-tropical regions of the world. Early Spanish explorers found these super fruits to be relished by the natives in Central America and the Caribbean. They are in season year round in Mexico and have their peak growth in the California summer. Avocados continue to grow in popularity not only in meals but as an oil used in cosmetic applications.
