# BIOCHEMICA® COCONUT BUTTER

Biochemica® Coconut Butter is designed for use in personal care product formulations to reduce cutaneous dryness and to assist in moisturization after exposure to harsh elements. It is completely oil miscible and contains no preservatives or coloring agents. Organic, 100% coconut oil is the majority ingredient in Biochemica® Coconut Butter, so it adds the natural aroma of a freshly split coconut to your formula, enhancing its aesthetic qualities while providing stability.

## INCI NAME

Cocos Nucifera (Coconut) Oil, Hydrogenated Vegetable Oil

Properties

- Deodorant agent
- Dermal barrier function restoration
- Dermal moisture content balancing
- Feel enhancement
- Hair conditioning agent
- Moisturizing agent
- Plant based
- Skin hydration agent

## CLAIMS

Delivers intense moisturization for 'decadently pampered' skin.

Protects skin from microbial infections as well as softens it for a healthier glow.

Deeply hydrates while repairing and smoothing dry and chapped skin.

## APPLICATIONS

After sun skin care

Facial skin care

Hand and body care

Lip care

Bar soaps

Hair conditioners and shampoos

Foot care

Shaving products

Liquid hand soaps

Body washes

## FORMULATED SOLUTIONS

Madama Balmfly

Natural moisturizing lip balm that treats your lips to the strong anti-inflammatory benefits of chamomile butter and the moisturizing benefits of the coconut butter.

## SUSTAINABLE SOURCING

The Philippines is one of the largest coconut producing regions in the world. For more than a century, farmers have harvested coconuts for the food and beauty industries at a growing rate. Biochemica® Coconut Butter is made with Fair Trade Extra Virgin Coconut Oil. As part of its efforts to create partnerships with suppliers, Hallstar supports local Philippine farmers with fair trade practices and ongoing sustainability efforts.
