BIOCHEMICA® COFFEE BUTTER

Biochemica® Coffee Butter is produced with Coffea arabica (coffee) seed oil, obtained via a special process of cold pressing roasted coffee beans. Coffee oil mainly contains polyunsaturated linoleic, but also a high content of saturated palmitic acid moieties. The butter's composition offers higher oxidation stability than coffee oil itself, as well as an exceptionally smooth and elegant feel on the skin. With the growing popularity of coffee in today's society and its topical benefits, Biochemica® Coffee Butter continues to be a favorite in formulations.

INCI NAME

Hydrogenated Vegetable Oil, Prunus Amygdalus Dulcis (Sweet Almond) Oil, Coffea Arabica (Coffee) Seed Oil

Properties

Appearance	Pale brown soft butter
Odor	Characteristic roasted coffee
Melting Point (°C)	42 - 50
Saponification Value (mg KOH/g)	175 - 200
Iodine Value (gI2/100g)	65.0 - 85.0
Acid Value (mg KOH/g)	0.0 - 2.0
Peroxide Value (meq/kg)	0.0 - 10.0
Insoluble In	Water
Soluble In	Cosmetic esters, vegetable oil
Packaging	Pail - 25kgs

BENEFITS

- Anti-inflammatory agent
- Anti-oxidant
- Biodegradable
- Bodying agent
- Ecocert
- Emollient
- Feel enhancement
- Hair conditioning agent
- Healing promotion
- Moisturizing agent
- Natural product
- Skin protectant (anti-radical properties)

CLAIMS

(Coffee) to tone, nourish and smooth the skin; and caffeine to stimulate fat burning, providing elasticity and firmness.

Known to stimulate tired skin to make it look healthy and radiant.

APPLICATIONS

After sun skin care

Facial skin care

Hand and body care

Lip care

Foot care

Hair conditioners

Massage products

Shaving products

Bath additives

Body washes and gels

FORMULATED SOLUTIONS

Natural Sunscreen Lotion SPF 55 PFA 21

A broad spectrum (SPF/PFA ≤ 3), natural (mineral UV filters only) sunscreen lotion. SolaStay® S1 is incorporated to mitigate the photocatalytic and reactive oxygen species generating activities of the oxides. Made with Biochemica® Coffee Butter for strong anti-oxidant and moisturizing properties.

NATURAL SOURCING

Colombian coffee is often regarded as some of the best coffee in the world. Colombia offers the perfect climate needed to grow superior arabica beans in over 500,000 farms across the country. The rising interest in the topical benefits of coffee is creating market demand for the antioxidant-rich oil. Biochemica® Coffee Butter uses Colombian coffee oil to incorporate its superior properties into a stable butter for all types of formulations.
